SUMMARY:

Entry-Level Web Developer with hands-on experience through an internship and project-based work at Mohjay Infotech. Skilled in **Java, JavaScript, and framework like Nodejs and React-js**, with growing expertise in **AWS and backend development**. Quick learner with a strong problem-solving mindset and the ability to adapt to new technologies. Seeking a challenging role where I can enhance my technical skills and contribute to meaningful software development projects.

EDUCATION

RV Institute of Technology (Affiliated to AKTU)

Bachelor of Technology in CSE

Nov 2021 – June 2025

(Current CGPA - **8.04**)

Simrah International School (CBSE)

12th, Mathematics

2020

(Percentage - **82%**)

Little Wood School (ICSE)

10th, Science

2018

(Percentage - **71%**)

EXPERIENCE

Mohjay Infotech — Junior Software Developer

(Project: Ecommerce app & blog webapp)

Sept 2025 – Dec 2025

Hyderabad, India

- Contributing to real-time development tasks with a focus on backend and cloud-related modules.
- Built and enhanced full-stack applications, including an E-commerce app (Flutter frontend + Node.js backend) and a Blog web app (React + Express.js).
- Developed secure REST APIs using Node.js and Express.js, integrating them with responsive Flutter and React UIs.
- Implemented AWS S3 for file uploads and asset storage, improving scalability and reducing local server dependency.
- Collaborated with the team using Git and GitHub, following proper branching, pull request, and code review workflows.
- Quickly adapted to new tools, project requirements, and cloud-based workflows in a fast-paced environment.

TECHNICAL SKILLS

- Languages:** JavaScript (DOM) and Java
- Tools:** VS Code, Git and GitHub
- Cloud Platforms:** AWS (EC2, IAM, S3 and Lambda)
- Technologies/Frameworks:** Web Development, APP Development, React-js, Express-js and Tailwind CSS.
- Other Skills:** Object-Oriented Design (OOP), Web Development, Networking.
- Operating Systems:** Linux
- Database:** MySQL and MongoDB

PROJECTS

E-Commerce Application — Flutter | Node.js | Express.js | MongoDB | AWS S3 [\[Github\]](#)

- Built a full-stack e-commerce app with a responsive Flutter UI and a secure Node.js/Express.js backend.
- Developed REST APIs for authentication, product management, cart operations, and order processing.
- Integrated AWS S3 for image/file uploads to improve scalability and media handling.
- Collaborated using Git/GitHub with branching, pull requests, and code reviews.

Blog Web Application — React | Node.js | Express.js | Mysql [\[Github\]](#)

- Developed a CRUD-based blogging platform with a React frontend and an Express.js backend API.
- Implemented features such as user authentication, blog creation, editing, deletion, and comments.
- Designed reusable UI components and ensured responsive layout with modern React practices.
- Built secure REST APIs, handled form data, and applied proper validation for user inputs.

ACHIEVEMENTS

- Runner-up** in Presentation competition (22 March 2022).
- Winner** in Presentation competition (20 March 2023).
- Runner-up in **Project Exhibition** competition (18 March 2024).
- Got Certificate of Appreciation & prize pool in District level **Hackathon**.

CERTIFICATIONS

- The Complete **MySQL** Bootcamp by Udemy | [\[Link\]](#)
- JAVA language Certification by **Apna College** | [Link](#)
